WARWIN SITE REVIEW

A full review of the new Warwin preview build: bonuses and promotions, cashier, registration, design on desktop and mobile, VIP and legal pages. Each part is compared with the market standards we sent in the promo research and with what the Argentine competitors show on their live sites today.

THE DESIGN IS READY. THE OFFER AND THE CASHIER ARE NOT.

The preview build is a big step forward from the live site. It has Spanish with Argentine wording, prices in pesos, a three-deposit welcome package, a complete VIP club and a clean mobile layout. It is not ready for paid traffic yet, for three reasons.

- **The welcome offer is not one offer.** Four different welcome offers appear on different screens, two of them in the wrong currency (US dollars and Azerbaijani manat).
- **An Argentine player cannot pay the usual way.** The cashier offers Payphone, card and bank transfer. Mercado Pago, the method Argentine players use first, is missing, and Payphone is a wallet from Ecuador.
- **The site does not show a licence.** The footer names only the Belize company. The Anjouan licence is mentioned inside the legal text, without a number or a seal.

What is good and should stay: the three-deposit ladder with a total cap of ARS 600,000, the choice between "bonus" and "no bonus" inside the cashier, the two-field sign-up with Google and Telegram, the Spanish version that opens automatically for Spanish browsers, and the mobile layout.

The ten fixes that matter most

#	FIX	WHEN
1	Show one welcome offer everywhere: the 350% triple package in pesos. Remove the other three.	Before traffic
2	Add Mercado Pago and make bank transfer work by CVU or alias. Remove Payphone and the PIX text. Open the cashier on pesos, not on crypto.	Before traffic
3	Put every amount in pesos. Manat, dollar, USDT and rouble amounts are still on the promotions, bonus history, notifications and help pages.	Before traffic
4	Set the minimum deposit at ARS 5,000 on every payment method, in the welcome package and in the promotions. Today the cashier shows ARS 1,000 and ARS 2,000, the welcome package starts at ARS 3,500 and the help page says USD 10 to 20.	Before traffic
5	Put the licence in the footer: authority, number and a seal that links to the validation page. Confirm the company registration number, which differs between the live site and the preview.	Before traffic
6	Confirm the bonus terms that are still placeholders (maximum bet, how long the offer is open), add a maximum win of 10 times the bonus, and publish one bonus policy page.	Before traffic
7	Move this build to the live domain. On 29 September warwin.casino still opened in English with manat bonuses.	Before traffic
8	Add a promo-code field to sign-up and to the cashier. Streamers and influencers in month 2 depend on it.	Month 1
9	Let crash games count toward the bonus, or add a crash welcome pack. Crash is the main Argentine game type and today it counts 0%.	Month 1
10	Define VIP rakeback as a share of the casino margin, not of the amount wagered. As written, the higher ranks pay back more than the casino earns.	Before VIP opens

SCORECARD AGAINST THE 10 MARKET STANDARDS

These are the ten standards from our Argentina promo research. For each one: what the preview build does today.

#	MARKET STANDARD WE SENT	STATUS	WHAT THE PREVIEW SHOWS
1	Welcome as a three-deposit ladder, ARS 600,000 total cap	Done	100% / 120% / 130% on deposits 1 to 3, caps ARS 150,000 / 150,000 / 300,000. Headline 350%.
2	Rollover 30 to 35x, published, one dated bonus policy, maximum win 10x	Partly	x30 in 30 days, shown in the bonus details window. No maximum win. Maximum bet (ARS 5,000) and offer period (7 days) are placeholders. The help page gives x40 as its example. No single bonus policy page.
3	Small minimum deposit, ARS 3,000 to 3,500	Done	Bonus minimum ARS 3,500, in line with the market. Warwin's minimum deposit is to be ARS 5,000 on every payment method, so the bonus minimum moves to ARS 5,000 too (section 05).
4	Welcome packs by game type, matched to the traffic	Missing	One casino package. Crash, live casino and sports count 0% toward the bonus. No sports or crash welcome.
5	Retention offers unlocked by deposit count; cashback by days active	Partly	5% Bonus Unlock from the second deposit and a flat 10% weekly loss cashback. No reload bonus. Nothing is unlocked by deposit count or by activity.
6	Countdown timers and category tags; short promos beside permanent ones	Partly	Countdown on the three welcome cards and category filters on the promotions page. The promo cards have no timers. One weekly promo only.
7	Promo-code field everywhere	Missing	No promo-code field on sign-up, in the cashier or on the promotions page.
8	Provider-funded promos (Drops and Wins, crash tournaments)	Missing	No tournaments or provider promos. Pragmatic Play is in the lobby, so Drops and Wins can be requested.
9	Affiliate click lands on a one-step form with pesos and the offer on the form	Partly	One step, two fields, Google and Telegram. The offer is not on the form, the currency is not shown, and there are no landing pages yet.
10	Spanish live tables, bonus-buy, scratch and jackpot categories; Argentine Spanish	Partly	Argentine wording in the interface, a Jackpots category and a bonus-buy banner. No Spanish live tables or scratch category visible. Help and legal pages use neutral Spanish, and some labels stay in English.

FOUR WELCOME OFFERS, SIX PROMOTIONS

The welcome offers a new player sees

WHERE	OFFER SHOWN	CURRENCY
Home page, before login	+100% up to \$500 and 200 free spins	US dollars

Promotions page	Welcome Free Spins: 100 free spins on registration	None

A fifth banner in the middle of the home page advertises a "100% casino bonus" next to the bonus-buy feature. An affiliate cannot write an ad when the site answers "what do I get?" in four ways.

The welcome package terms (from the bonus details window)

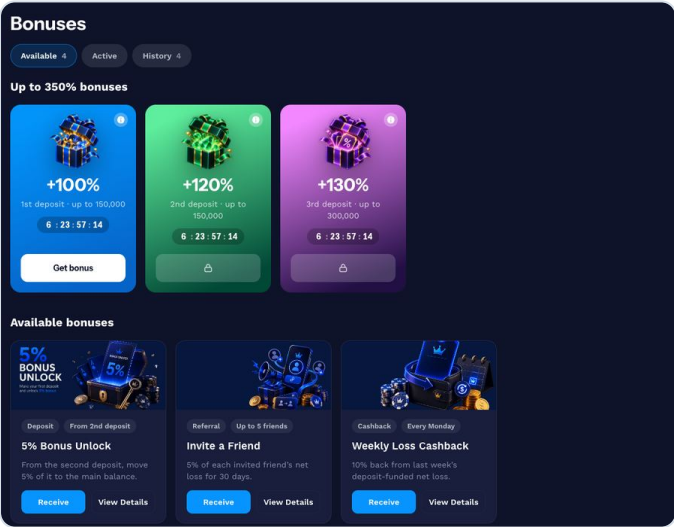

TERM	VALUE IN THE PREVIEW	COMMENT
Ladder	100% / 120% / 130%	Rising, like JugaBet. Good: it rewards deposits 2 and 3.
Caps	ARS 150,000 / 150,000 / 300,000	Total ARS 600,000, the market standard.
Minimum deposit	ARS 3,500	Same as Brazino777. To change to ARS 5,000 (section 05).
Rollover	x30 of the bonus, 30 days	We recommended x35 if crash is included.
Maximum bet	ARS 5,000	Placeholder in the build. To confirm.
Offer open for	7 days from registration	Placeholder in the build. To confirm.
Game weights	Slots 100%, table 5%, live, crash and sports 0%	Crash players cannot clear the bonus.
Maximum win	None	JugaBet caps winnings at 10x the bonus.
Free spins	None inside the package	JugaBet adds up to 450, 1win adds 500.

The six promotions

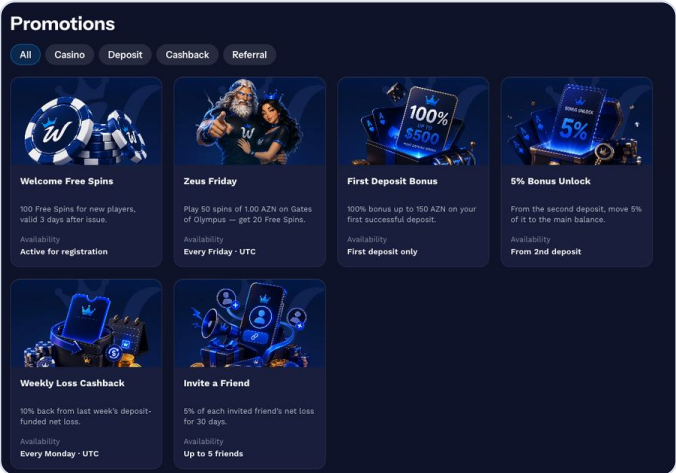

PROMOTION	WHAT IT SAYS	PROBLEM
Welcome Free Spins	100 free spins for new players, valid 3 days	Competes with the welcome package. No game, spin value or rollover stated.

PROMOTION	WHAT IT SAYS	PROBLEM
Zeus Friday	Play 50 spins of 1.00 AZN on Gates of Olympus, get 20 free spins. Every Friday, UTC.	Priced in manat. Time in UTC, not Argentine time.
First Deposit Bonus	100% up to 150 AZN	Old offer. Conflicts with the welcome package. Title not translated.
5% Bonus Unlock	From the second deposit, 5% of it moves from bonus balance to main balance	Hard to understand on first read. Needs one worked example in pesos.
Weekly Loss Cashback	10% of last week's net loss, every Monday	The VIP club promises 5% to 5.8% weekly cashback at Bronze. Two different numbers for the same thing. No cap stated.
Invite a Friend	5% of each friend's net loss for 30 days, up to 5 friends	Invites multi-accounts. Needs a rule that the friend is verified.

- The promotion cards show no terms. Minimum deposit, rollover, cap and dates should be on every card and on its detail page.
- There is no sports promotion and no tournament, although Sports is one of the two main sections.
- The label "Availability" on every card stays in English in the Spanish version.
- Bonus history, the active bonus and the notifications show sample amounts in USDT and US dollars. The limits in the profile can be set in USDT, USD, EUR or AZN, not in pesos.

Bonuses page, logged in: the three-deposit ladder with countdowns and locked steps. Amounts have no currency sign.

Promotions page, logged in. Zeus Friday and First Deposit Bonus are priced in AZN; the banner image says \$500.

Warwin's package is competitive on the headline, the cap and the minimum. It matches Brazino777's terms almost line by line, with a higher percentage. The gaps are the free spins, the maximum win and an answer for crash and sports players.

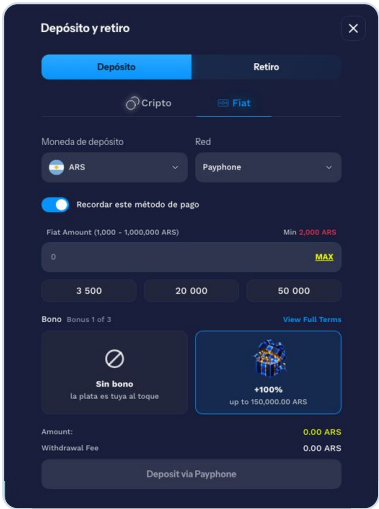

Pin-Up and Stake protect their sites with a bot check, Betano blocks connections like ours, and the licensed local brands show minimums only inside the cashier. We did not get their terms this time.

What the competitors run beside the welcome offer

TYPE	COMPETITORS TODAY	WARWIN PREVIEW

THE CASHIER IS BUILT FOR THE WRONG COUNTRY

Deposit window, Spanish version, pesos tab.

ITEM	WHAT THE PREVIEW SHOWS
Opens on	Crypto (ETH). Pesos are on the second tab.
Methods for pesos	Payphone, card, bank transfer. Payphone is a wallet from Ecuador. No Mercado Pago. The bank transfer does not say whether it works by CVU or alias.
Other currencies	US dollars and roubles
Minimum deposit	"1,000 - 1,000,000 ARS" and "Min 2,000 ARS" on the same screen. The help page says USD 10 to 20.
Quick amounts	3,500 / 20,000 / 50,000
Bonus choice	"No bonus" or "+100%" before paying. Good.
Wrong labels	The method list is called "Network". A "Withdrawal fee" line appears on the deposit screen. Several labels stay in English.
Withdrawal	Minimum ARS 2,000 in the cashier, USD 20 in the help page. Fee 1.67%.
Profile	Says the phone is needed "to withdraw via PIX" and shows a Brazilian +55 number.

Withdrawal promise against the competitors

SITE	WHAT THE PLAYER IS TOLD
Warwin help page	Requests processed in 24 to 72 hours, then up to 24 hours for wallets and 3 to 10 banking days for cards and transfers. Verification is required before the first withdrawal. 10% fee if the deposit was not wagered once.
JugaBet	Withdrawals by bank transfer or wallet within 24 hours. Deposits by Mercado Pago credited from 3 minutes. Needs a verified identity and 70% of the deposit wagered.
Brazino777	Shows the average withdrawal time on the home page (3 minutes 35 seconds when we read it) and the pesos paid out in the last 7 days.

Required: minimum deposit ARS 5,000 on every payment method. The cashier must not accept a deposit below ARS 5,000, on any method (crypto: the same value). Everything else follows from it: quick buttons 5,000 / 20,000 / 50,000, each of the three welcome deposits from ARS 5,000, every deposit promotion from ARS 5,000, and the same figure on the help pages. Every first deposit is then ARS 5,000 or more and counts as a qualified FTD. The preview takes deposits from ARS 1,000 and gives the welcome bonus from ARS 3,500. The competitors are slightly lower: JugaBet ARS 3,000, Brazino777 ARS 3,500, 1win ARS 4,500.

ITEM	WARWIN PREVIEW	JUGABET

Country and currency	Not shown	Argentine flag and +54
Promo code	No	Offer chosen on the form

- The form shows the error "Email is required" as soon as it opens, before the player types.
- The link under the button says "New to Warwin? Login". On the sign-up form it should say "Already have an account?".
- The help page says the player selects a currency and confirms the e-mail at sign-up. The form does neither. It also lists only USD and EUR as supported currencies.
- The home banner offers Facebook sign-up. The form offers only Google and Telegram.

CLEAN DESIGN, NOT YET ARGENTINE

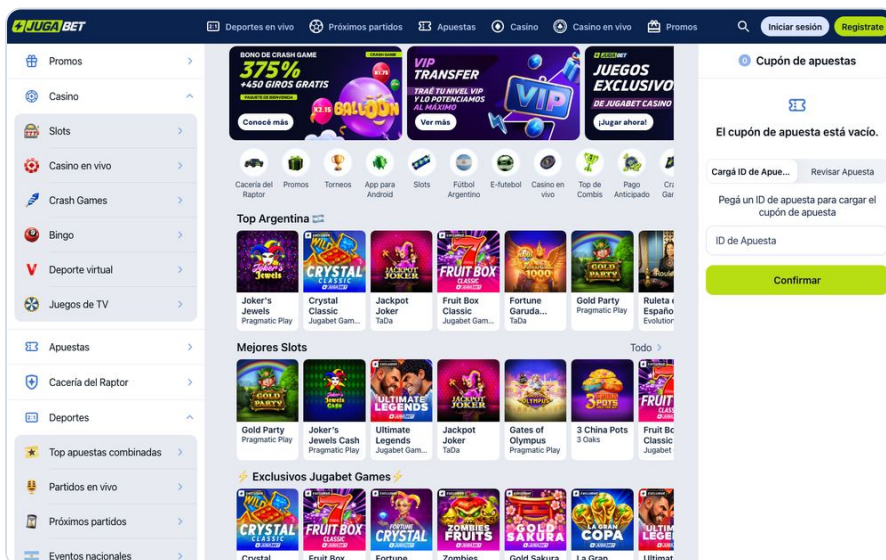

Warwin preview on a phone, Spanish.

What works

- Clear, modern dark design, the same on every screen
- Phone layout with a bottom menu (Menu, Casino, Home, Sports, Search) and no sideways scrolling
- Spanish opens automatically when the browser is in Spanish, with an Argentine flag on the language button
- Argentine wording in the interface: "Regístrate", "Ingresá", "la plata es tuya al toque"
- Welcome steps shown as three cards with countdowns; steps 2 and 3 locked until the previous one is used
- Responsible gaming tools in the profile: deposit, loss and wager limits

What is missing on the home page

- No payment logos anywhere. Argentine players look for Mercado Pago before they register.
- No licence seal in the footer
- No Argentine content: no local football, no "top in Argentina" row
- No proof of life: winners, players online or withdrawals paid
- No app or "add to home screen" prompt. Every competitor has an app.
- Promotions are fifth in the menu. JugarBet puts them first.

JugarBet home page today: crash welcome banner, "Top Argentina" row, Argentine football shortcut, promos first in the menu.

Language leftovers

- English labels in the Spanish version: "Availability", "First Deposit Bonus", "Bonus 1 of 3", "View Full Terms", "up to", "Deposit via", "Withdrawal Fee", and the VIP progress block
- The help center and legal pages use neutral Spanish ("haz clic", "selecciona") while the interface uses Argentine Spanish
- Promotion times are in UTC. Argentina is three hours behind.

COMPLETE, IN PESOS, WITH ONE COSTLY LINE

RANK	WAGERED PER MONTH (ARS)	RAKEBACK	EXTRAS
Bronze	75,000 to 500,000	From 2.00%	Weekly cashback from 5%, birthday bonus, level rewards ARS 150 to 1,000
Silver	500,000 to 3,000,000	From 3.50%	Weekly free spins, deposit bonuses
Gold	3,000,000 to 20,000,000	From 5.00%	Faster withdrawals, personal promotions
Platinum	20,000,000 to 100,000,000	From 7.20%	Priority support, exclusive tournaments
Diamond	100,000,000 to 600,000,000	Up to 11.00%	Personal VIP manager, highest limits

Rakeback needs a definition. The page says "part of everything you wager comes back, win or lose". On slots the casino keeps about 4% of what is wagered. If rakeback is 2% of the amount wagered, Bronze already gives back half of that margin, and from Gold (5%) the casino pays back more than it earns on every spin. The usual meaning is a share of the casino margin. The page should say so, with one example in pesos.

- The entry level is reachable: ARS 75,000 wagered in a month is about USD 55.
- Ranks reset every calendar month. A player who joins on the 25th has 5 days. A rolling 30 days is fairer.
- VIP weekly cashback (5% to 5.8% at Bronze) and the public Weekly Loss Cashback (10%) need to become one rule.
- The progress block at the top of the VIP page stays in English.
